MEET THE FOUNDER

Jashin J. Wu, MD, FAAD

Through the 7 year Honors Program in Medical Education, Jashin J. Wu, M.D., earned a BA in biological sciences from Northwestern University in Evanston, Illinois and an MD from Northwestern University Medical School in Chicago. Dr. Wu completed dermatology residency at the University of California, Irvine, California, where he was chief resident.

Jashin J. Wu, M.D., is a Councilor for the International Psoriasis Council. He serves on the American Academy of Dermatology (AAD)/ National Psoriasis Foundation psoriasis guidelines committee, which published updated 6 psoriasis guidelines in 2019-2021. He is editor or co-editor for 6 books which include Therapy for Severe Psoriasis, 1st edition, 2016; Clinical Cases in Psoriasis, 1st edition; Mild-To-Moderate Psoriasis, 3rd edition, 2014; Moderate-To-Severe Psoriasis, 4th edition, 2014.

He is associate editor for the 4th edition of Comprehensive Dermatologic Drug Therapy published in March 2020. He has written over 450 Pubmed articles, of which over 250 are about psoriasis, as well as 70 book chapters. His articles have been published in The New England Journal of Medicine, The Lancet, JAMA, Journal of the American Academy of Dermatology, JAMA Dermatology, British Journal of Dermatology, JEADV, and most dermatology journals.

For the AAD, he is Chair of the World Congress Fund Review Task Force. He is Secretary-Treasurer of the Pacific Dermatology Association. Dr. Wu has given over 200 CME lectures at medical conferences and dermatology departments/divisions in 11 countries. He has been awarded 2 Presidential Citations from the AAD (2016, 2021).

VISIT THE EXHIBIT HALL

Visit the sponsors in the exhibit hall and complete your exhibit passport. Collect a sticker from all companies, and you will be eligible to win prizes!

Almirall | almirall.com

Almirall was founded in Barcelona, Spain in 1943 and now operates in 21 countries through 13 affiliates. A family company, we are centered on innovation and patient care. Almirall US is headquartered in Malvern, PA.

Amgen | amgen.com

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing and delivering innovative human therapeutics. This approach begins by using tools like advanced human genetics to unravel the complexities of disease and understand the fundamentals of human biology.

Boehringer Ingelheim | boehringer-ingelheim.com

Boehringer Ingelheim is working on breakthrough therapies that improve the lives of humans and animals. As a leading research-driven biopharmaceutical company, the company creates value through innovation in areas of high unmet medical need. Founded in 1885 and family-owned ever since, Boehringer Ingelheim takes a long-term perspective. Around 52,000 employees serve more than 130 markets in the three business areas, Human Pharma, Animal Health, and Biopharmaceutical Contract Manufacturing.

Bristol Myers Squibb | bms.com

Bristol Myers Squibb is a leading global biopharma company focused on discovering, developing and delivering innovative medicines for patients with serious diseases in areas including oncology, hematology, immunology, cardiovascular, fibrosis and neuroscience. Our employees work every day to transform patients' lives through science.

Castle Biosciences | castlebiosciences.com

Castle Biosciences is a leading diagnostics company improving health through innovative tests that guide patient care. We aim to transform disease management by keeping patients and clinicians first. Our innovative tests provide personalized, clinically actionable information to clinicians and patients to guide treatment decisions and improve health outcomes.

Codex Labs Corporation | codexlabscorp.com

Founded in Silicon Valley and led by scientist Dr. Barb Paldus, Codex Labs is committed to creating the highest standard in sustainable, clinically proven, MyMicrobiome-certified skin solutions from biotech plant-based actives with a focus on skin conditions such as acne, eczema, or psoriasis. The brand has been heralded by dermatologists for bringing a data-driven and transparent approach to skincare with at-home DECODE diagnostics, the DermScore assessment app, and the DermNET telehealth scheduling platform.

Dermavant Sciences | dermavant.com

A Passion for Science and a Commitment to Dermatology. Dermavant Sciences, a subsidiary of Roivant Sciences, is a clinical-stage biopharmaceutical company committed to fostering unprecedented change and unparalleled impact in immuno-dermatology. We're doing this by thinking differently, pushing the boundaries of science and partnering with providers in new ways—all with one goal: transforming the lives of millions of patients with skin diseases.

SDDS_2023_OnsiteGuide_8.5x11.indd 10 2/7/23 8:10 PM

DermTech | dermtech.com

DermTech is the leading genomics company in dermatology and is creating a new category of medicine, precision dermatology, enabled by our non-invasive skin genomics platform. DermTech's mission is to transform dermatology with our non-invasive skin genomics platform, to provide high quality dermatology care, and to improve the lives of millions. DermTech provides genomic analysis of skin samples collected non-invasively using an adhesive patch. DermTech markets and develops products that facilitate the early detection of skin cancers and is developing products that assess inflammatory diseases and customize drug treatments.

Fotona | fotona.com/us

With over 50 years of laser expertise and industry leadership, Fotona produces award-winning lasers in dentistry, aesthetics, dermatology, gynecology, and surgery. Fotona is globally recognized and has earned a reputation for unparalleled quality, reliability, ease-of-use, durability, and dedication to R&D.

George Tiemann & Co | georgetiemann.com

Surgical Instruments for Gen Derm and Mohs, including suggested instrument sets. Ask about of Unlimited Lifetime sharpening for a single fee and new office discounts.

Janssen | janssen.com

The Janssen Pharmaceutical Companies of Johnson & Johnson never stop working to create a future where disease is a thing of the past.

Novartis | novartis.com

Novartis is reimagining medicine to improve and extend people's lives. As a leading global medicines company, we use innovative science and digital technologies to create transformative treatments in areas of great medical need. In our quest to find new medicines, we consistently rank among the world's top companies investing in research and development. Novartis products reach nearly 800 million people globally and we are finding innovative ways to expand access to our latest treatments.

Ortho Dermatologics | ortho-dermatologics.com

Ortho Dermatologics is committed to the dermatology community and healthcare providers, by helping treat patients in therapeutic areas including acne, immunology and psoriasis.

Pfizer | pfizer.com

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety, and value in the discovery, development, and manufacture of health care products.

Regeneron | regeneron.com

Since 2007, Regeneron and Sanofi have collaborated to help people with debilitating and complex conditions that are often difficult to diagnose and treat, using fully-human monoclonal antibodies. Regeneron is a leading science-based biopharmaceutical company based in Tarrytown, New York that discovers, invents, develops, manufactures, and commercializes medicines for the treatment of serious medical conditions. Sanofi Genzyme is the specialty care global business unit of Sanofi, focused on rare diseases, rare blood disorders, neurology, immunology and oncology. © 2022 Regeneron Pharmaceuticals, Inc., and sanofi-aventis U.S. LLC. All rights reserved.

SDDS_2023_OnsiteGuide_8.5x11.indd 11 2/7/23 8:10 PM

Sandoz | sandoz.com

Sandoz, a Novartis division, is a pioneer and a global leader in biosimilars. We invest in research and development to improve the lives of patients and liberate healthcare resources through increased access to high-quality, affordable biologics.

Sanofi/Regeneron | dupixent.com

Sanofi is dedicated to supporting people through their health challenges. We are a global biopharmaceutical company focused on human health. We stand by the few who suffer from rare diseases and the millions with long-term chronic conditions. With more than 100,000 people in 100 countries, Sanofi is transforming scientific innovation around the globe. Regeneron is a leading biotechnology company that invents medicines for people with serious diseases. Founded and led for over 30 years by physician-scientists, our unique ability to repeatedly and consistently translate science into medicine has led to numerous FDA approved treatments, almost all of which were homegrown in our laboratories.

UCB | ucb-usa.com

UCB innovates and delivers solutions that make real improvements for people living with severe diseases. We partner with and listen to patients, caregivers and stakeholders across the healthcare system to identify promising innovations that create valuable health solutions.

SDDS_2023_OnsiteGuide_8.5x11.indd 12 2/7/23 8:10 PM

Win a Prize at SDDS!

Attend each product theater and visit our sponsors in the Exhibit Hall and you can win one of our exciting prizes! Thank you to the following companies for their donation to our prize drawings:

ANIRVA
BEAUTY FROM THE INSIDE OUT

Anirva manufactures and distributes dietary supplements to support skin health with scientifically researched formulations of antioxidants. The company has emerged as one of the fastest-growing niche players in the "beauty from inside out" category. Supplying the highest quality supplements supported by research that is manufactured in the USA at FDA registered & GMP certified facility is our mission. Our goal is to produce the most effective supplements with natural ingredients available in the most ethical and sustainable manner for all skincare needs. Anirva is headquartered in Houston, Texas, USA.

ALASTIN SKINCARE

ALASTIN Skincare® is the fastest-growing physician-dispensed skincare brand, with innovative, scientifically proven and clinically tested products. Founded in 2015, ALASTIN Skincare provides a comprehensive collection of cutting-edge products for optimal procedure results and daily skincare regimens. We strategically focus research and development on innovative products with the greatest potential impact for patients and providers.

BURT'S BEES®

Consciously made since 1984. Clean, effective formulas made with care from the #1 Dermatologist Recommended Natural Skincare Brand.

CODEX LABS™

Founded in Silicon Valley and led by scientist Dr. Barb Paldus, Codex Labs is committed to creating the highest standard in sustainable, clinically proven, MyMicrobiome-certified skin solutions from biotech plant-based actives with a focus on skin conditions such as acne, eczema, or psoriasis. The brand has been heralded by dermatologists for bringing a data-driven and transparent approach to skincare with at-home DECODE diagnostics, the DermScore assessment app, and the DermNET telehealth scheduling platform.

EltaMD® SKINCARE

EltaMD is the number one trusted, recommended and personally used professional sunscreen by Dermatologists in the US.* No other skin care company can claim that. Our Sun Care, Skin Care and Post Procedure products are formulated for every skin type, lifestyle and condition to protect, renew and heal skin health.

George Tiemann & Co.
QUALITY SURGICAL INSTRUMENTS
Since 1826

Surgical Instruments for Gen Derm and Mohs, including suggested instrument sets. Ask about of Unlimited Lifetime sharpening for a single fee and new office discounts.

SEEN

SEEN is an award-winning, clean, non-comedogenic and non-irritating, luxury hair care line developed by Dr. Iris Rubin, a Harvard-trained dermatologist. SEEN's breakthrough patented formulations are leading the skinification of hair and are anchored in science and clinically-tested. Everyone deserves to feel SEEN.

SDDS_2023_OnsiteGuide_8.5x11.indd 13 2/7/23 8:10 PM

L'ORÉAL

La Roche-Posay is the number 1 dermocosmetic brand worldwide, recommended by 90,000 dermatologists. Driven by our values of courage, commitment and love, we partner with dermatologists and experts to design innovative skincare solutions for the most fragile skin and be useful to people.

NUTRAFOL

The leader in hair science and innovation, Nutrafol's daily hair growth Nutraceuticals have been shown to improve hair growth and reduce shedding in multiple clinical studies, and are the #1 dermatologist recommended hair growth supplement brand for trusted, reliable results. For additional information on hair wellness and Nutrafol's customized solutions, visit www.nutrafol.com/professionals.

Senté

Senté - Even Skin tone for everyone. Senté is an emerging medical-grade skincare company with products recommended and dispensed by hundreds of physician offices across the US, as well as online directly to customers. Senté is the first and only company to successfully develop a version of Heparan Sulfate—a natural molecule our bodies use to renew damaged, inflamed skin—and infuse it into skincare products. Our formulas are designed to help boost the skin's immune response to inflammation, amplify its ability to repair and protect itself. In targeting the causes of inflammation, Herparan Sulfate Analog (HSA) can help improve the appearance of different issues – from dark spots to dryness, and everything in between. Senté's goal is to change the narrative, improving uneven skin tone in as little as four weeks. To deliver healthy skin- and the confidence that comes with it. For more information please visit our website at www.sentelabs.com or contact Amy Haber amy@sentelabs.com (760) 445-5807

TiZO® Mineral Sunscreens & Skincare

TiZO® Mineral Sunscreens set the standard for aesthetic elegance with tinted and non-tinted formulas that are reef-friendly and 100% free of chemical sunscreens, dyes, fragrances, gluten, phthalates, and parabens. TiZO Photoceutical® Skincare is the perfect partner to our mineral sunscreens in the fight against photoaging.
