**MEET THE FOUNDER**

**Jashin J. Wu, MD, FAAD**

Through the 7 year Honors Program in Medical Education, Jashin J. Wu, M.D., earned a BA in biological sciences from Northwestern University in Evanston, Illinois and an MD from Northwestern University Medical School in Chicago. Dr. Wu completed dermatology residency at the University of California, Irvine, California, where he was chief resident.

Jashin J. Wu, M.D., is a Councilor for the International Psoriasis Council. He serves on the American Academy of Dermatology (AAD)/ National Psoriasis Foundation psoriasis guidelines committee, which published updated 6 psoriasis guidelines in 2019-2021. He is editor or co-editor for 6 books which include Therapy for Severe Psoriasis, 1st edition, 2016; Clinical Cases in Psoriasis, 1st edition; Mild-To-Moderate Psoriasis, 3rd edition, 2014; Moderate-To-Severe Psoriasis, 4th edition, 2014.

He is associate editor for the 4th edition of Comprehensive Dermatologic Drug Therapy published in March 2020. He has written over 450 Pubmed articles, of which over 250 are about psoriasis, as well as 70 book chapters. His articles have been published in The New England Journal of Medicine, The Lancet, JAMA, Journal of the American Academy of Dermatology, JAMA Dermatology, British Journal of Dermatology, JEADV, and most dermatology journals.

For the AAD, he is Chair of the World Congress Fund Review Task Force. He is Secretary-Treasurer of the Pacific Dermatology Association. Dr. Wu has given over 200 CME lectures at medical conferences and dermatology departments/divisions in 11 countries. He has been awarded 2 Presidential Citations from the AAD (2016, 2021).

## **Legally Mine | [www.legallymine.com](http://www.legallymine.com)**

Legally Mine is a legal service company designed to protect business and personal assets as well as finding legitimate means of lowering tax liabilities. Legally Mine will show you how to stop the threat of lawsuits before they ever get started by protecting your assets in time tested and proven legal structures. These same structures allow us to help our tax attorneys shave what you would normally pay in income taxes."

## **Mayne Pharma | [www.maynepharma.com](http://www.maynepharma.com)**

Mayne Pharma Group Limited (Mayne Pharma) is an ASX-listed specialty pharmaceutical company focused on applying its drug delivery expertise to commercialize branded and generic pharmaceuticals, providing patients with access to better and more accessible medicines. Mayne Pharma also provides contract development and manufacturing services to more than 100 clients worldwide. Mayne Pharma's roots can be traced to FH Faulding and Co, for many years one of the largest and most prominent public companies headquartered in South Australia. A technology driven company, Mayne Pharma has a significant product portfolio and pipeline, global reach through distribution partners in Australia, North America, Europe and Asia and two product development and manufacturing facilities based in Salisbury, Australia and Greenville, North Carolina, USA with expertise in formulating complex oral and topical dose forms including highly potent compounds, modified release products and poorly soluble compounds. The business is supported by over 900 staff globally with more than 200 scientists employed. The 11,700 square foot facility in Greenville, North Carolina specializes in complex dosage forms including potent compounds, Schedule II-V controlled substances, inherently unstable compounds and products with poor bioequivalence. Mayne Pharma has a 40-year track record of innovation and success in developing new oral drug delivery systems and these technologies have been successfully commercialized in numerous products that have been marketed around the world.

## **Organogenesis | [www.organogenesis.com](http://www.organogenesis.com)**

Organogenesis is a leading regenerative medicine company focused on empowering healing through the development, manufacturing and sale of products for the advanced wound care, surgical and sports medicine markets

## **Sanofi / Regeneron | [www.dupixent.com](http://www.dupixent.com)**

Sanofi is dedicated to supporting people through their health challenges. We are a global biopharmaceutical company focused on human health. We stand by the few who suffer from rare diseases and the millions with long-term chronic conditions. With more than 100,000 people in 100 countries, Sanofi is transforming scientific innovation around the globe. Regeneron is a leading biotechnology company that invents medicines for people with serious diseases. Founded and led for over 30 years by physician-scientists, our unique ability to repeatedly and consistently translate science into medicine has led to numerous FDA approved treatments, almost all of which were homegrown in our laboratories.

# Win a Prize at DRS!

Attend each product theater and visit our sponsors in the Exhibit Hall and you can win one of our exciting prizes! Thank you to the following companies for their donation to our prize drawings:

Anirva manufactures and distributes dietary supplements to support skin health with scientifically researched formulations of antioxidants. The company has emerged as one of the fastest-growing niche players in the “beauty from inside out” category. Supplying the highest quality supplements supported by research that is manufactured in the USA at FDA registered & GMP certified facility is our mission. Our goal is to produce the most effective supplements with natural ingredients available in the most ethical and sustainable manner for all skincare needs. Anirva is headquartered in Houston, Texas, USA.

ALASTIN Skincare® is the fastest-growing physician-dispensed skincare brand, with innovative, scientifically proven and clinically tested products. Founded in 2015, ALASTIN Skincare provides a comprehensive collection of cutting-edge products for optimal procedure results and daily skincare regimens. We strategically focus research and development on innovative products with the greatest potential impact for patients and providers.

Consciously made since 1984. Clean, effective formulas made with care from the #1 Dermatologist Recommended Natural Skincare Brand.

Founded in Silicon Valley and led by scientist Dr. Barb Paldus, Codex Labs is committed to creating the highest standard in sustainable, clinically proven, MyMicrobiome-certified skin solutions from biotech plant-based actives with a focus on skin conditions such as acne, eczema, or psoriasis. The brand has been heralded by dermatologists for bringing a data-driven and transparent approach to skincare with at-home DECODE diagnostics, the DermScore assessment app, and the DermNET telehealth scheduling platform.

EltaMD is the number one trusted, recommended and personally used professional sunscreen by Dermatologists in the US.\* No other skin care company can claim that. Our Sun Care, Skin Care and Post Procedure products are formulated for every skin type, lifestyle and condition to protect, renew and heal skin health.

SEEN is an award-winning, clean, non-comedogenic and non-irritating, luxury hair care line developed by Dr. Iris Rubin, a Harvard-trained dermatologist. SEEN's breakthrough patented formulations are leading the skinification of hair and are anchored in science and clinically-tested. Everyone deserves to feel SEEN.

La Roche-Posay is the number 1 dermocosmetic brand worldwide, recommended by 90,000 dermatologists. Driven by our values of courage, commitment and love, we partner with dermatologists and experts to design innovative skincare solutions for the most fragile skin and be useful to people.

## NUTRAFOL

The leader in hair science and innovation, Nutrafol's daily hair growth Nutraceuticals have been shown to improve hair growth and reduce shedding in multiple clinical studies, and are the #1 dermatologist recommended hair growth supplement brand for trusted, reliable results. For additional information on hair wellness and Nutrafol's customized solutions, visit [www.nutrafol.com/professionals](http://www.nutrafol.com/professionals).

## Senté

Senté - Even Skin tone for everyone. Senté is an emerging medical-grade skincare company with products recommended and dispensed by hundreds of physician offices across the US, as well as online directly to customers. Senté is the first and only company to successfully develop a version of Heparan Sulfate—a natural molecule our bodies use to renew damaged, inflamed skin—and infuse it into skincare products. Our formulas are designed to help boost the skin's immune response to inflammation, amplify its ability to repair and protect itself. In targeting the causes of inflammation, Heparan Sulfate Analog (HSA) can help improve the appearance of different issues – from dark spots to dryness, and everything in between. Senté's goal is to change the narrative, improving uneven skin tone in as little as four weeks. To deliver healthy skin- and the confidence that comes with it. For more information please visit our website at [www.sentelabs.com](http://www.sentelabs.com) or contact Amy Haber [amy@sentelabs.com](mailto:amy@sentelabs.com) (760) 445-5807

TiZO® Mineral Sunscreens set the standard for aesthetic elegance with tinted and non-tinted formulas that are reef-friendly and 100% free of chemical sunscreens, dyes, fragrances, gluten, phthalates, and parabens. TiZO Photoceutical® Skincare is the perfect partner to our mineral sunscreens in the fight against photoaging.
