Statement of Need/Program Overview

The San Diego Dermatology Symposium® is an annual, three-day dermatology conference that covers the latest developments in dermatology.

Learning Objectives

At the conclusion of this course, you will be able to:

- Discuss the new treatments for psoriasis and how to choose between them.
- Evaluate older and newer therapies for atopic dermatitis.
- Discern various options for managing skin cancer and actinic keratoses.
- Assess the various therapies available for acne.
- Describe infectious diseases of the skin and management of these conditions.
- Discuss therapeutic options for disorders of pigment, hair, and nails.
- Identify optimal patients for aesthetic procedures such as botulinum, fillers, chemical peels, and lasers.
- Describe concepts learned that can be incorporated directly into clinical practice

Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by Medical Education Resources (MER) and the Dermatology Research and Education Foundation (DREF). Disclosure of Conflicts of Interest

Medical Education Resources insures balance, independence, objectivity, and scientific rigor in all our educational activities. In accordance with this policy, MER identifies conflicts of interest with its instructors, content managers, and other individuals who are in a position to control the content of an activity. Reported conflicts of interest are mitigated by MER to ensure that all scientific research referred to, reported, or used in a CE activity conforms to the generally accepted standards of experimental design, data collection, and analysis. MER is committed to providing learners with high-quality CE activities that promote improvements or quality in health care and not the business interest of a commercial interest.
